BEES, TREES & CLEAN WATER

SATURDAY, SEPTEMBER 14

Join us for an event for all citizens interested in the intersection of plants, pollinators, and water quality. This program will feature speakers on topics from how to attract native bees (not all sting!), tree and shrub selection, cost-share funding for your landscape choices, and promoting soil building. After the speakers, we'll head right outside for a brief afternoon guided tour of turf-to-native meadow conversion.

Register now by visiting cbf.org/Bees.
